Before EFG: MIDAS

- **filmarchives-online.eu**: Union catalogue of (mostly non-fiction) film holdings

The screenshot shows the homepage of the filmarchives online website. The header features the logo 'filmarchives online' and the tagline 'Finding Moving Images in European Collections'. A navigation menu includes links for Home, Search, News, About, Partners, Help, Links, Contribute, and Contact. Below the menu, a search bar is visible with a 'Search' button and a checkbox for 'Licensable films only'. The main content area is titled 'welcome to filmarchives online' and contains a paragraph of introductory text. To the right of the text are four small images showing film reels and equipment. At the bottom of the main content area, there are two links: 'read more on MIDAS...' and 'read more on the participating archives'. A row of flags representing various European countries is also visible on the right side of the main content area.

Licensable films only

welcome to *filmarchives online*

filmarchives online provides easy and free access to catalogue information of film archives from all over Europe. Via the multi-lingual web portal film works can be searched for by content, filmographic data and physical characteristics. Search results provide information about existence and location of the materials as well as contact details to facilitate the access. The focus of the database is on **non-fiction material**; i.e. documentary and educational films, newsreels, travelogue, advertising, scientific, industrial, experimental, sports films, as well as animation films. **filmarchives online** is the result of the MIDAS project (Moving Image Database for Access and Re-use of European Film Collections). MIDAS had been initiated as a pilot project in the MEDIA Plus programme of the European Commission. It ran from January 2006 until January 2009 and was carried out by 18 institutions and archives under the lead of the Deutsches Filminstitut – DIF.

[read more on the participating archives](#)

Before EFG: MIDAS

- Developments since the launch of MIDAS:
 - Faster internet connections: Multimedia content
 - More & easy content syndication
 - „Web 2.0“
 - Mass digitisation
 - EDL initiative/Europeana: Cross-domain integration
- **Users: Why can't I see the film on your site?**

→ **EFG project**

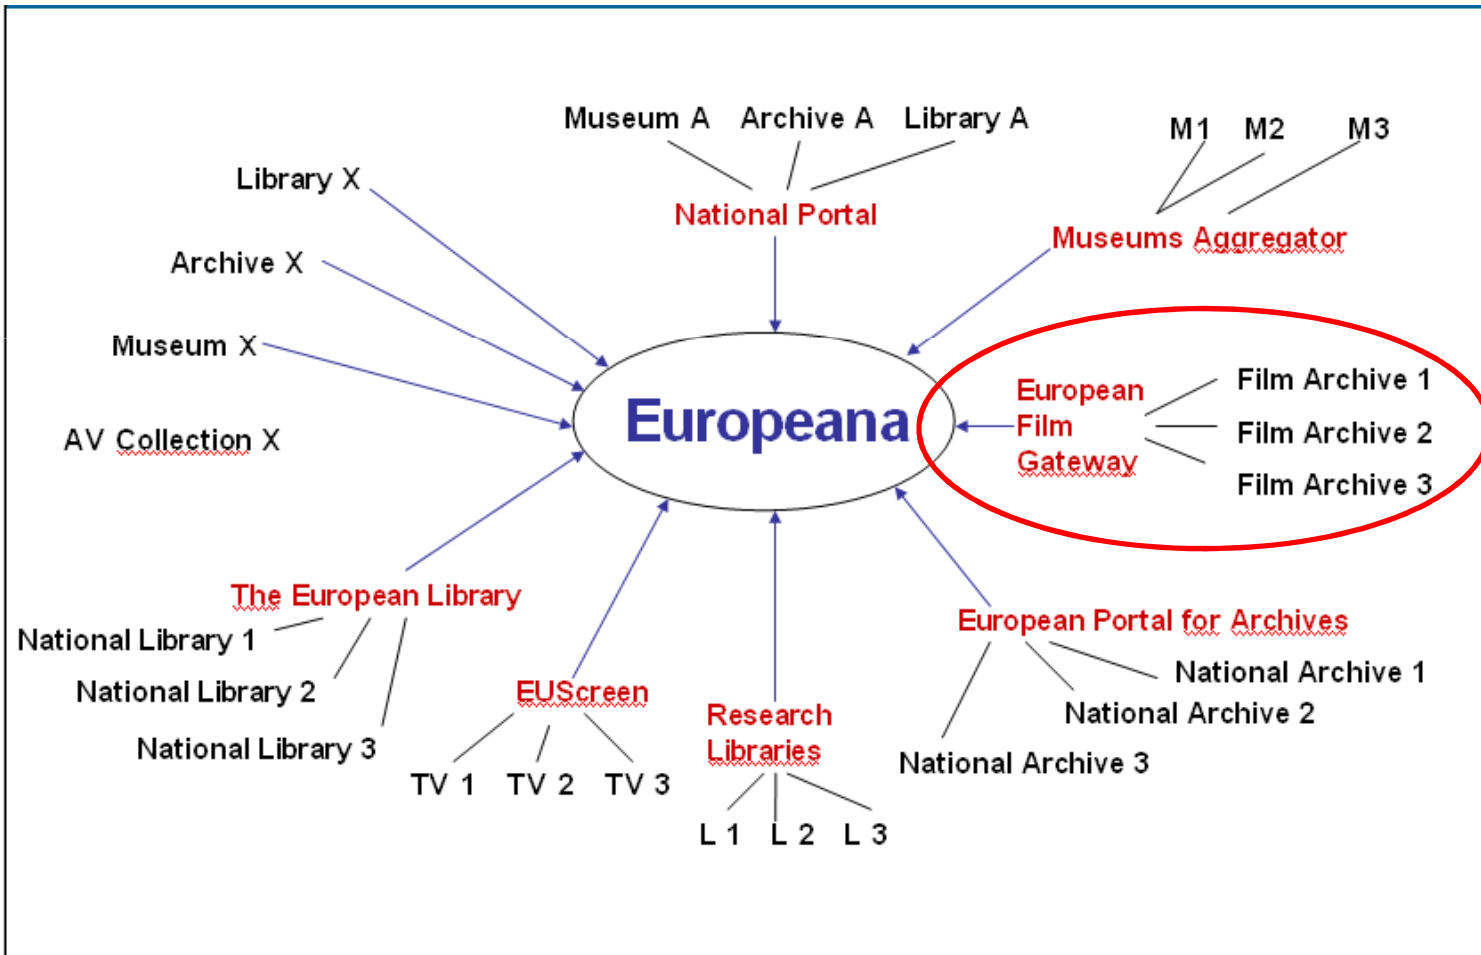

What is EFG supposed to achieve?

- Build a „digital showcase“ for collections of Europe’s film archives and cinematheques
 - Moving images: Films and film clips, trailers etc.
 - Images: Posters, images, stills, drawings etc.
 - Text material: Reviews, correspondence, censorship documents etc.
 - Sound material: Interviews etc.
- Central access point to federated digital collections and repositories
- Free (of cost) access to digital collections
- Registry of digital objects and authority records (works of film, persons)

EFG as an „Aggregator“ for Europeana

Why „Aggregators“?

- Interoperability of digital content and metadata across institutions & domains
- Limited resources of core Europeana projects (e.g. EuropeanaNet, Europeana V1.0)
- Domains (Libraries, Museums, Archives, Audiovisual heritage institutions) to clean up their own backyard first
- Circumvent „dumbing-down“ of metadata by additionally providing a domain-specific access point

Fritz Lang

Friedrich Christian Anton Lang, geboren am 5. Dezember 1890 in Wien, Sohn des Architekten und Stadtbaumeisters (Bauunternehmers) Anton Lang und seiner Frau Paula, geb. Schlesinger. Lang, der sich schon als Kind mit Zeichnen und Malen beschäftigt, besucht die Volks- und Realschule, beginnt 1907 ein Architektur-Studium an der Technischen Hochschule Wien, 1908 ein Kunststudium, zunächst an der Akademie der Graphischen Künste in Wien, ab 1911 in München an der Staatlichen Kunstgewerbeschule Julius Diez. Er unternimmt ausgedehnte Reisen – "Deutschland, Belgien, Holland, Mittelmeerländer und die afrikanischen

KEJSER WILHELMS ANKOMST TIL KØBENHAVN

Kejser Wilhelms Ankomst til København (Peter Elfelt, DK, 1903)

DK/Dokumentarfilm 35 mm 1.33 sort-hvid stum

Kejseren var en mindre velkommen gæst i Danmark. Både af personlige og politiske grunde ønskede kongehuset forbindelse til ham. Men kejseren havde en vis vane med at invitere sig selv.

 Werner Krauß

Die Binnenhandlung dieses expressionistischen Stummfilmklassikers erzählt die Geschichte des Dr. Caligari, der mit Hilfe eines Somnambulen namens Cesare eine kleine norddeutsche Stadt in Angst und Schrecken versetzt. Tagsüber präsentiert Caligari den an einer merkwürdigen, tranceartigen Krankheit leidenden Cesare auf dem Jahrmarkt. Dort sagt der

Partners

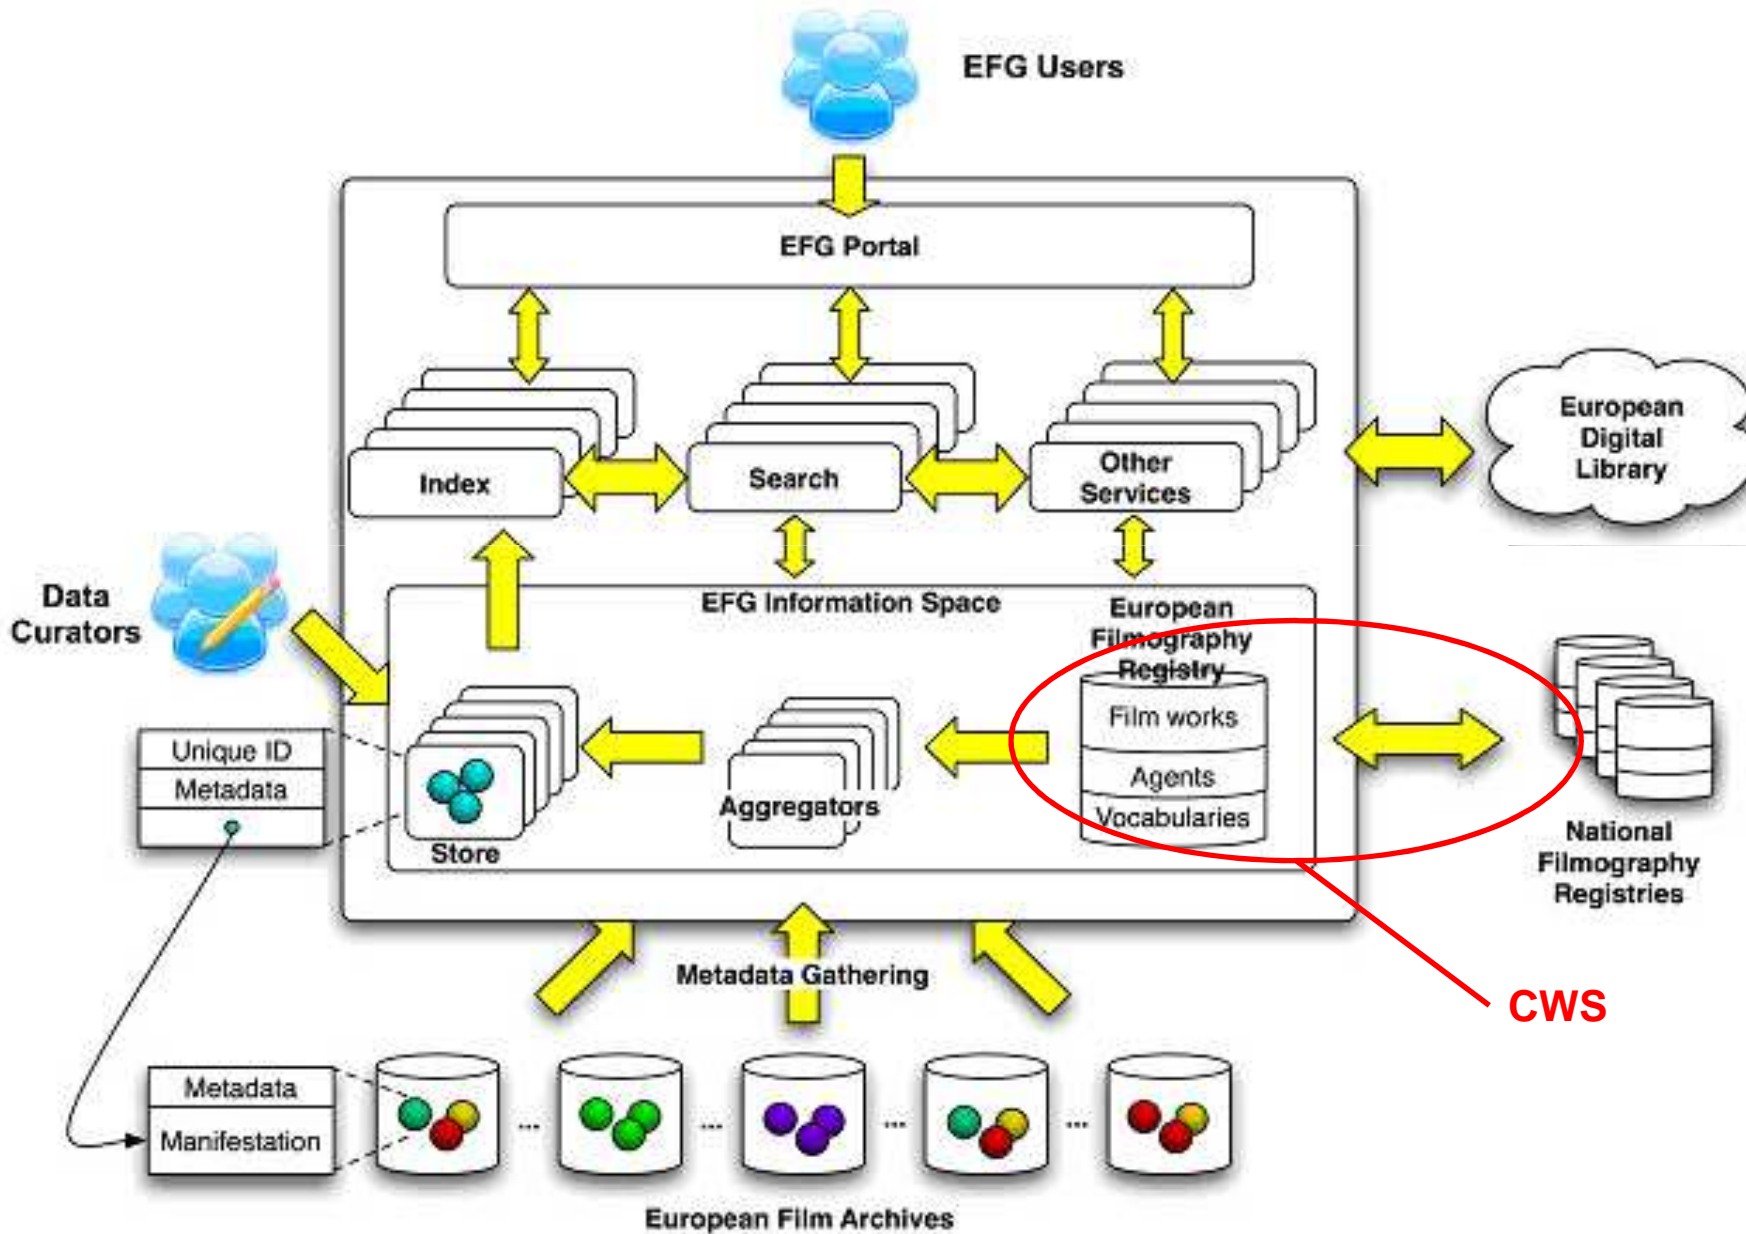

- 21 Partners from 15 European Countries
- 15 Content providers (= film archives & cinémathèques)
- 3 Technology providers and providers of technological infrastructure
- 3 Other partners (Dissemination, Co-ordination with EDL, Sustainability planning)

Consortium: IT partners and -providers

- CNR-ISTI, Pisa (technology provider and technical service provider)
- FernUniversität Hagen (technical service provider)
- Reelport GmbH, Cologne (storage & streaming infrastructure)

Metadata interoperability & CWS

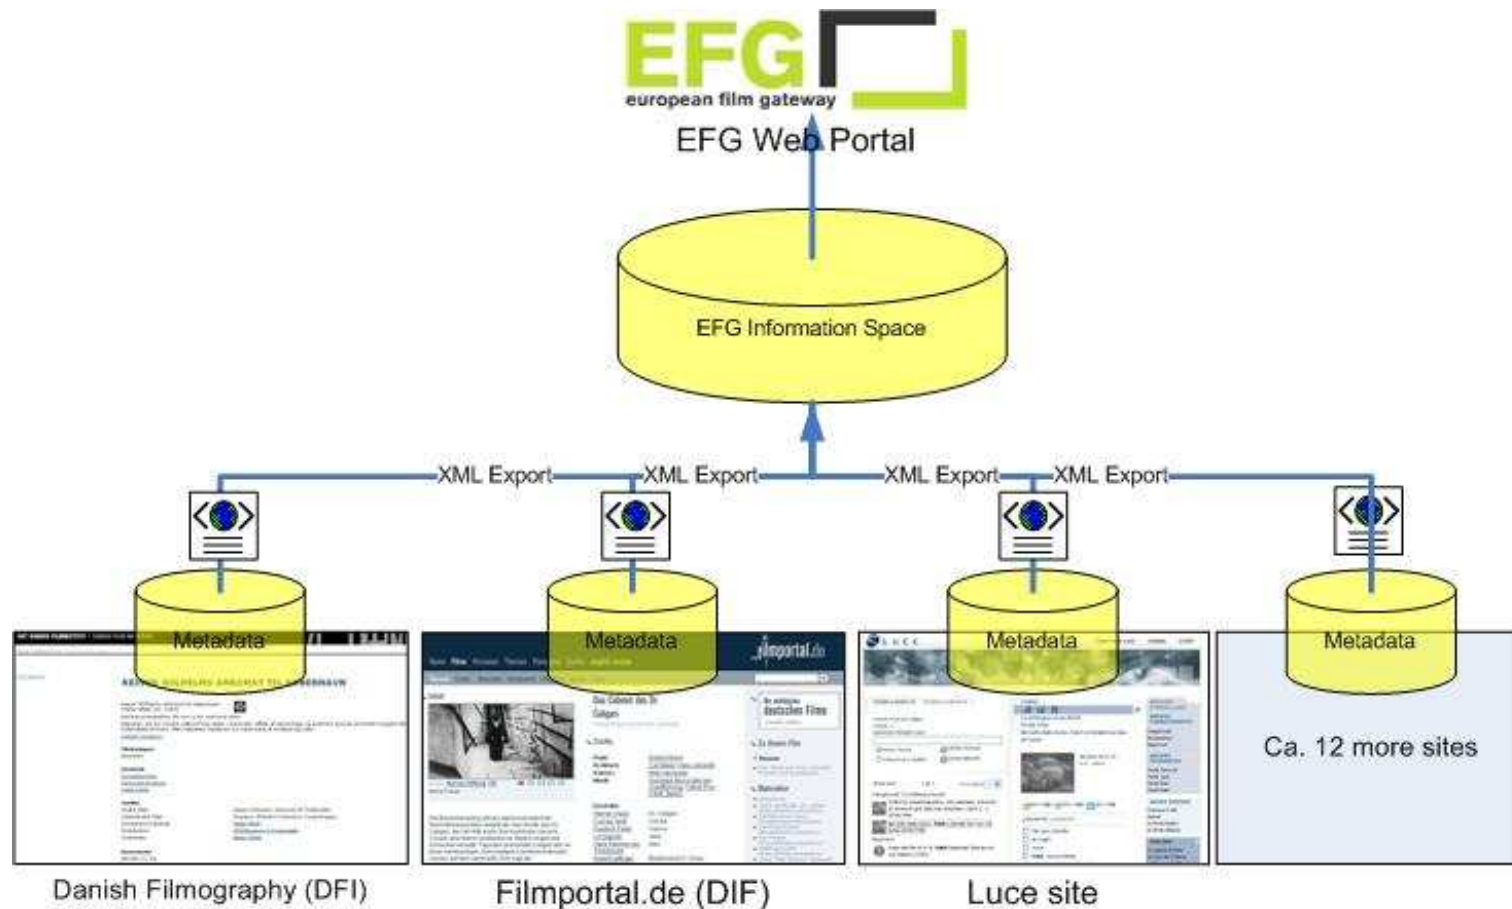

- Cinematographic Works Standard (CWS) to be partially applied in EFG
- Current drafts and news: www.filmstandards.org
- Unambiguous identification of film works catalogued under different distribution titles
- Primary goal not to generate new metadata
- But: Consolidate existing filmographic information and link digital resource descriptions to filmographic records

Common interoperability schema

- Main characteristics of the model
 - Based on the FRBR paradigm and on the CEN metadata element set
 - Five main entities
 - AVCreation
 - AVManifestation
 - NonAVCreation
 - NonAVManifestation
 - Item
 - Event
 - Agent
 - Collection

- Extraction of XML exports from local databases (preferably OAI-PMH)
- Mapping to EFG data structure and ingest into EFG information space
- EFG user interface

IPR issues

- 1895!
- Multiple „Authors“, Moral Rights
- Most film archives don't own rights:
< 10%
- Europe ≠ US (pre-1923 published works)
- Lack of proper rights documentation
- Orphan works

Time schedule

June 2009	Metadata schema finalised
June/July 2009	Test ingests from first 5 archives
August 2009	Testing and further ingests
Autumn 2009	First test ingests from EFG to Europeana possible
Summer 2010	EFG portal public launch
Until August 2011	Consolidating film work and person authority files, linking objects to authority records, further ingests

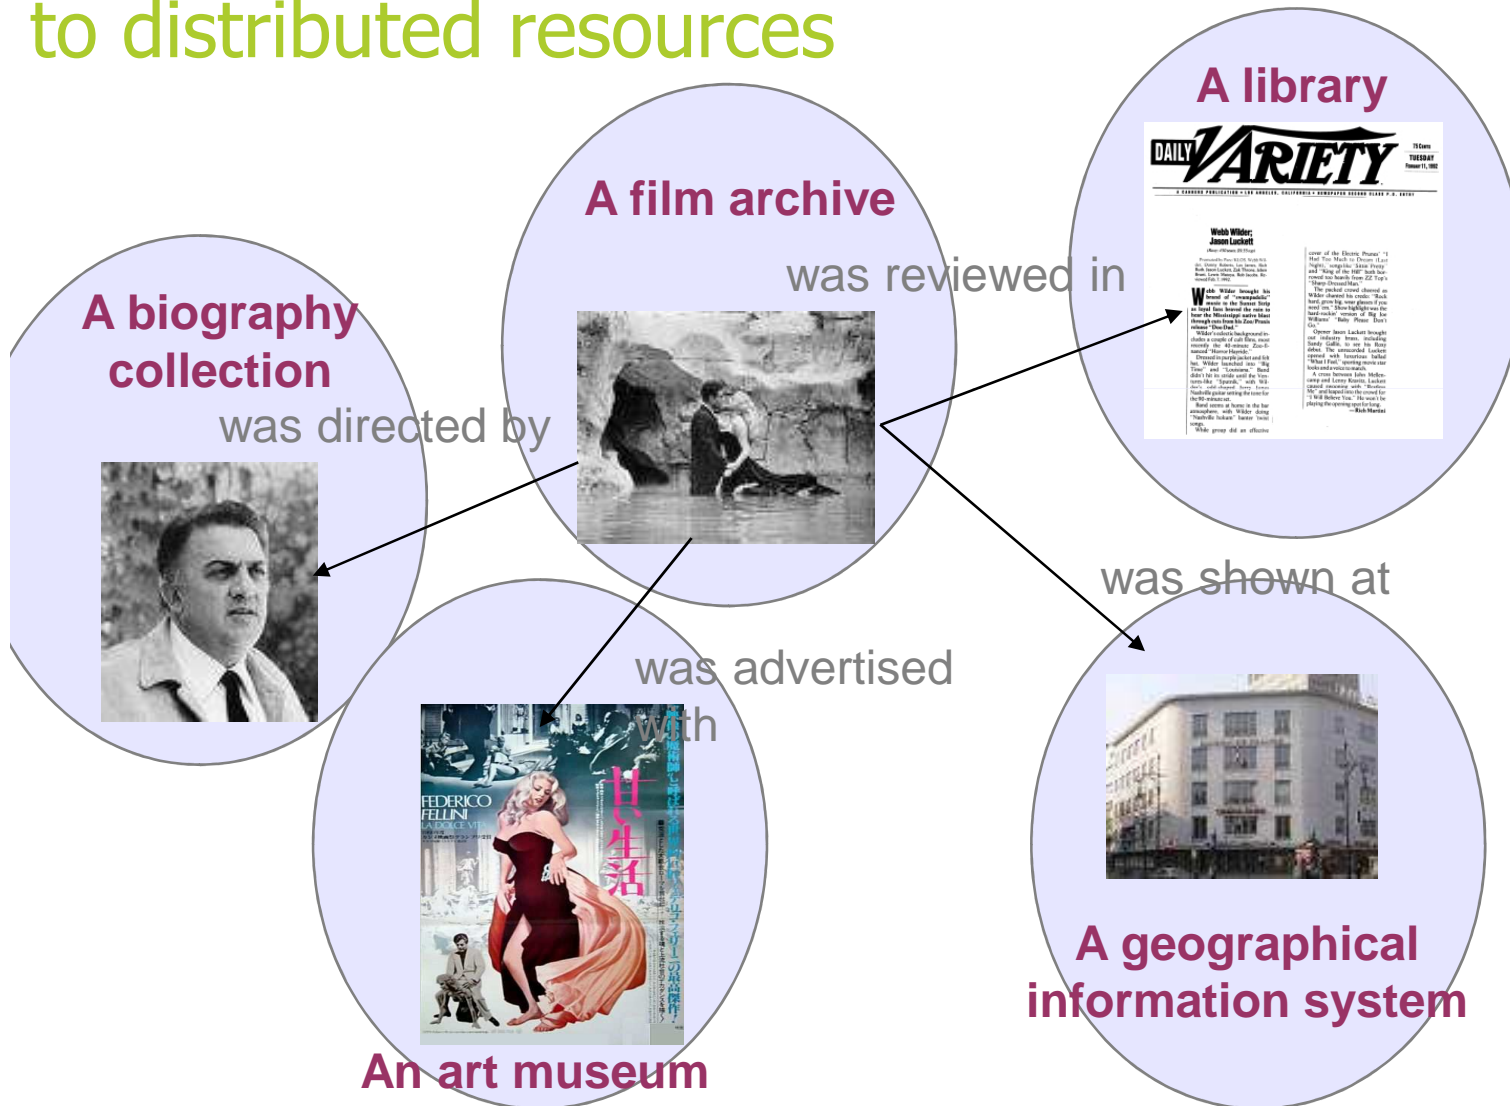

Expected results

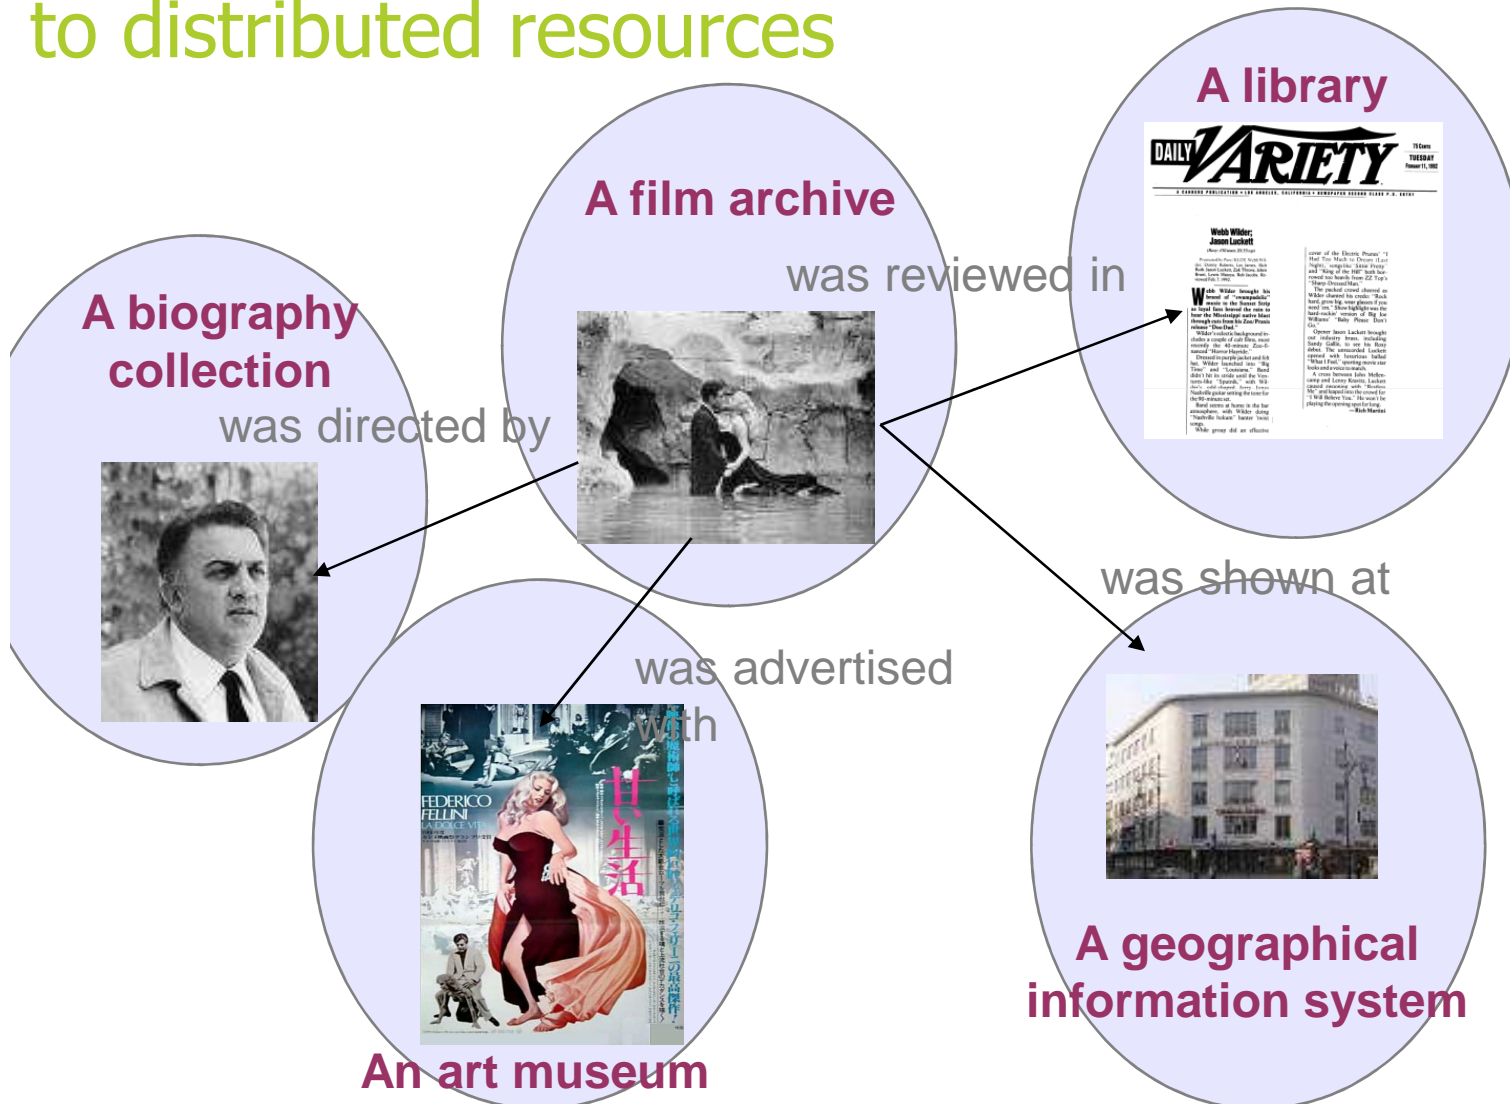

- **Agreement** on common interoperability standards for film archives and cinémathèques
- **Best practices** for rights identification
- **A single access point** to the digitised collections of Europe's film and audio-visual archives
- Access to Europe's film heritage through **Europeana**

The future: From local database records to distributed resources

The future: From local database records to distributed resources

Welcome

EFG - The European Film Gateway is a 3-year project which started on 1st September 2008. It will develop an online portal, providing direct access to about 790,000 digital objects including films, photos, posters, drawings, sound material and text documents.

EFG is a *Best Practice Network* funded by the European Commission under the [eContentplus programme](#), as part of the [i2010 policy](#).
